HELP
When you need it
Where you need it

Our award-winning VisualSP Help System enables sustainable SharePoint adoption in your organization!

- Page context help through Help Tab
- Inline help through informational icons

Just-in-Time support for SharePoint users delivered in-context and on-demand directly through the SharePoint interface.

Download a Free 30-day Trial

Key Features

- **In-Context Help within SharePoint**
  Context sensitive support provided to users in the form of Video Tutorials, Documents and Screenshots directly within the SharePoint interface.

- **Help for Site Owners and Users**
  Training and support assets are exposed to site owners as well as users, helping them with what they need, where they need it.

- **Help System Analytics**
  VisualSP help system usage is visible to the SharePoint Administrators. This provides insight into which Help assets are being utilized and who is accessing them in the organization.
